CONTENTS OF VOLUME 40

Abadom, P. N. and **Scholefield, P. G.** Amino acid transport in brain cortex slices. I. The relation between energy production and the glucose-dependent transport of glycine, 1575.

Amino acid transport in brain cortex slices. II. Competition between amino acids, 1591.

Amino acid transport in brain cortex slices. III. The utilization of energy for transport, 1603.

Adamkiewicz, V. W. and **Fortier, A. A.** Insulin and the "mineralocorticoid" activity of certain steroids, 1243.

Adams, G. A. See Haq, S., 989; Srivastava, H. C., 905.

Ahmed, K. and **Scholefield, P. G.** Biochemical studies on 1-aminocyclopentane carboxylic acid, 1101.

Ainsworth, L., Carter, A. L., and **Common, R. H.** A chromatographic study of some conversion products of estrone-16-C^{14} in the urine and feces of the laying hen, 123.

Airth, J. M. See Balazs, T., 1.

Alarie, Y. See Rosenberg, E., 1359.

Allard, C. and **Choquette, G.** Percentage of alpha-lipoproteins, total cholesterol, and atherosclerosis, 1515.

Anastassiadis, P. A. See Grant, D. L., 639.

Angel, A. See Zingg, W., 437.

Ankel, H. See Martin, S. M., 237.

Annau, E. See Cochrane, D., 1334.

Araki, K. See Myers, D. K., 1535.

Ashwin, J. G. Elevated incidence of experimental thrombosis after heparin, 1153.

Babineau, L. M. See Berlinguet, L., 425, 433, 1111.

Balazs, T., Airth, J. M., and **Grice, H. C.** The use of the serum glutamic pyruvic transaminase test for the evaluation of hepatic necrotropic compounds in rats, 1.

Bannard, R. A. B. See Coleman, I. W., 815, 827.

Baxter, R. M. See Kates, M., 1213.

Beall, D. See Kraml, M., 1449.

Beaton, J. R. See Orme, T., 591; Maur, J. M., 1427.

Becking, G. C. and **Hurst, R. O.** The heterogeneity of pancreatic deoxyribonuclease, 165.

Bégin, N. See Berlinguet, L., 425, 433, 1111.

Bellis, D. M. See Stoker, J. R., 1763.

Benfey, B. G. Effect of phenoxybenzamine on vagal inhibition of the heart, 1457.

Berecz, A. and **Godin, C.** The incorporation of tryptophan analogues into rat plasma proteins, 153.

Berlinguet, L., Bégin, N., and **Babineau, L. M.** Autoradiographic studies of the distribution of 1-aminocyclopentanecarboxylic acid in normal and cancerous mice, 1111.

Berlinguet, L., Bégin, N., Babineau, L. M., and **Laferté, R. O.** Biochemical studies of an unnatural and antitumor amino acid: 1-aminocyclopentanecarboxylic acid. II. Effects on cellular respiration and amino acid metabolism, 433.

Berlinguet, L., Bégin, N., Babineau, L. M., Martel, R., Vallée, R., and **Laferté, R. O.** Biochemical studies of an unnatural and antitumor amino acid: 1-aminocyclopentanecarboxylic acid. I. Toxicity and tissue distribution, 425.

Beveridge, J. M. R. See McCarthy, M. J., 1693.

Beyer, R. E., Noble, W. M., and **Hirschfeld, T. J.** Coenzyme Q (ubiquinone) levels of tissues of rats during acclimation to cold, 511.

Beznák, M. Hemodynamics during the acute phase of myocardial damage caused by isoproterenol, 25.

Beznák, M. *With the technical assistance of* **A. Marcsán** and **T. Fournier.** Cardiovascular effects of thyroxine treatment in normal rats, 1647.

Bidwell, R. G. S. Direct paper chromatography of soluble compounds in small samples of tissue adhering to the paper, 757.

Birks, R. I. The effects of a cardiac glycoside on subcellular structures within nerve cells and their processes in sympathetic ganglia and skeletal muscle, 303.

Biron, P. See Nowaczynski, W., 727.

Birzgalis, R. See Reese, E. T., 273.

Blakley, E. R. and **Spencer, J. F. T.** Studies on the formation of D-arabitol by osmophilic yeasts, 1737.

Blostein, R. and **Denstedt, O. F.** The enolase of the human erythrocyte, 1005.

Blumer, H. See Richter, M., 105.

Bois, P. See Jasmin, G., 697.

Bowen, H. F. See Perry, W. F., 749.
Boyd, E. M., Mulrooney, D. A., and **Sargeant, E. J.** The toxicity of benzylpenicillin in animals on vitamin A deficient test diet, U.S.P. XIV, 1685.
Branion, H. D. See Olsen, E. M., 381.
Breuninger, E. See Srivastava, H. C., 905.
Bronte-Stewart, B. See Wilkens, J. A., 1091.
Brown, S. A. Biosynthesis of the coumarins. III. The role of glycosides in the formation of coumarin by *Hierochloe odorata*, 607.
Bruce, R., Cinader, B., and **Percy, J.** A non-specific depressant effect on the immunological response, 1353.
Burgen, A. S. V. The structure and function of cell membranes, 1253.
Burley, R. W. and **Cook, W. H.** The dissociation of α- and β-lipovitellin in aqueous solution. Part I. Effect of pH, temperature, and other factors, 363.
The dissociation of α-and β-lipovitellin in aqueous solution. Part II. Influence of protein phosphate groups, sulphydryl groups, and related factors, 373.
Burton, A. F. See Krehbiel, R. E., 1797.
Campbell, J. A. See Morrison, A. B., 1663.
Carroll, K. K. Alterations of plasma, liver, and adrenal cholesterol levels in rats fed amphenone B and related compounds, 688.
Studies on the mechanisms by which erucic acid affects cholesterol metabolism. Distribution of erucic acid in adrenal and plasma lipids, 1115.
Levels of radioactivity in tissues and in expired carbon dioxide after administration of 1-C^{14}-labelled palmitic acid, 2-C^{14}-labelled erucic acid, or 2-C^{14}-labelled nervonic acid to rats, 1229.
Carter, A. L. See Ainsworth, L., 123.
Chappel, C. I., Voith, K., and **Rona, G.** Further studies on the role of the adrenal gland in adrenal-regeneration hypertension, 1567.
Chaudhury, M. R. See Chaudhury, R. R., 1465.
Chaudhury, R. R., Chaudhury, M. R., and **Lu, F. C.** The mechanism of the reserpine-induced antidiuresis in the rat, 1465.
Chisholm, M. D. See Underhill, E. W., 1505.
Choquette, G. See Allard, C., 1515.
Chrétien, M. See Nowaczynski, W., 727.
Cinader, B. See Bruce, R., 1353.
Cipera, J. D. Composition of epiphyseal cartilage. II. Differences in composition of epiphyseal and articular cartilage of rachitic chicks, 65.
Cipera, J. D. and **Willmer, J. S.** Composition of epiphyseal cartilage. III. Differences in enzymatic activities of epiphyseal and articular cartilages of rachitic chicks, 419.
Cochrane, D. and **Annau, E.** Electrophoretic differences in the egg-white proteins of the hen, 1335.
Coleman, I. W., Little, P. E., and **Bannard, R. A. B.** Cholinolytics in the treatment of anticholinesterase poisoning. I. The effectiveness of certain cholinolytics in combination with an oxime for treatment of sarin poisoning, 815.
Cholinolytics in the treatment of anticholinesterase poisoning. II. Treatment of sarin poisoning with an oxime and various combinations of cholinolytic compounds, 827.
Common, R. H. See Ainsworth, L., 123; McCully, K. A., 937.
Cook, W. H. See Burley, R. W., 363, 373; Kratohvil, J. P., 877.
Cook, W. H. and **Martin, W. G.** Composition and properties of soluble lipoproteins in relation to structure, 1273.
Craig, B. M. See Leegwater, D. C., 847, 857.
Creech, H. J. See Srivastava, H. C., 905.
Cronin, R. F. P. and **MacIntosh, D. J.** The effect of induced hypoxia on oxygen uptake during muscular exercise in normal subjects, 717.
Cua-Lim, F. See Richter, M., 105.
Czaja, C. See Kalant, H., 975.
Darrach, M. See Krehbiel, R. E., 1797.
Darrach, M. and **Krehbiel, R.** The preparation and properties of 20α-dihydrocorticosterone, 1769.
Davignon, J., Koiw, E., Nowaczynski, W., Tremblay, G., and **Genest, J.** Studies on the in vitro production of corticosteroids by adrenal glands from normotensive individuals and hypertensive patients, 285.
Delorme, P. See Richter, M., 471.
Delorme, P., Richter, M., Grant, S., and **Rose, B.** Studies on the uptake of reagin by polyaminostyrene–ragweed complexes, 519.
Dempster, G. See Spencer, W. A., 1705.
Denstedt, O. F. See Blostein, R., 1005.

Derry, D. See McGeer, E. G., 13.
DesMarais, A. See Dugal, L. P., 325.
DesMarais, A. and **LaHam, Q. N.** The relation between the staining properties of the thyroidal colloid and its iodine content, 227.
Devi, A. Isolation and characterization of ribonucleic acid from rat lens, 41.
de Wit, H. See Wilkens, J. A., 1079, 1091.
DeWolfe, D. E. See Myers, D. K., 413, 619, 1535.
D'Iorio, D. and **Mavrides, C.** Inhibitory effects of 3,5-diiodo-4-hydroxybenzoic acid on the catechol-O-methyltransferase activity in a crude enzyme preparation, 1454.
Dresel, P. E. Sites of vagal action in adrenaline-induced cardiac arrhythmias, 1655.
Dubuc, J. See Kraml, M., 1449.
Dugal, L. P. See Perrault, M. J., 1717.
Dugal, L. P. and **Dunnigan, J.** Le poids de l'électro-éjaculat chez le cobaye soumis à une exposition chronique au froid, 407.
Dugal, L. P., Saucier, G., and **DesMaris, A.** *With the technical assistance of* **A. Léveillé.** Impairment of testicular function in the white rat chronically exposed to a low ambient temperature, 325.
Duguid, J. R. See Fenton, P. F., 337.
Dunnigan, J. See Dugal, L. P., 407.
Elliott, K. A. C. See Pappius, H. M., 885.
Ellis, D. B. and **Scholefield, P. G.** The effects of adenine and glucose on synthesis of nucleotides by Ehrlich ascites carcinoma cells in vitro, 343.
Evans, E. V. See Sibbald, I. R., 1391; Sinclair, D. G., 1375, 1395.
Fagerlund, U. H. M. Marine sterols. X. The sterol content of the plankton *Euphausia pacifica*, 1839.
Fahmy, A. R., Ibrahim, H. H., and **Talaat, M.** Inhibitory effect of thiopentone on the pyruvic dehydrogenase in brain. Reversibility of action by thiamine pyrophosphate and lipoic acid, 477.
Fenton, P. F. and **Duguid, J. R.** Growth hormone and cardiac glycogen: Influence of environmental and genetic factors, 337.
Finlayson, A. J. and **McConnell, W. B.** Studies on wheat plants using carbon-14 compounds. XVI. Fractionation of a performic acid oxidized protein, 219.
Fitzgerald, G.M. See Llaurado, J. G., 397.
Fortier, A. A. See Adamkiewicz, V. W., 1243.
